

Capability Statement

Selective. Vetted. Relationship-driven.

Trade Access Partners (TAP) is a project access and delivery partner for builders, developers and facilities teams across Sydney. We've built a carefully curated portfolio of experienced subcontractors across commercial, fit-out and residential construction. Our role is to connect the right people with the right projects — prioritising long-term relationships over transactions and quality over volume.

We provide builders, developers and facilities teams with access to trusted subcontractors across commercial construction, fit-out and interiors, high-end residential, and facilities and refurbishment. Every contractor in our portfolio has been thoroughly vetted for capability, financial stability, professionalism and alignment with our standards.

Curated delivery partners across every major construction discipline:

And other specialist trades available on request.

Contractors are introduced with full supporting compliance documentation including certificates of currency, trade licences and relevant certifications. We are equally selective about the clients we engage with. Successful long-term relationships are built on mutual respect, professionalism and alignment.

Vetting Criteria:

- ✓ Capability and track record
- ✓ References and project history
- ✓ Financial stability
- ✓ Professionalism and communication
- ✓ Relevant insurances and trade qualifications
- ✓ Alignment with our values and standards

Additional Services

Additional strategic services — including white-collar recruitment, supply chain support and procurement assistance — are available on a case-by-case basis. Enquire directly for details.
